UNITED TECHNOLOGIES OF AUTOMATION

AI MANAGED SERVICES

AI Automation for the Modern Enterprise

AUTOMATE COMPLEX WORKFLOWS WHERE AGENTS THINK AND ACT, WHILE PEOPLE LEAD

FOUNDED BY EX-SVP OF DATA & AI, JP MORGAN

R&D PARTNERS: USA FORTUNE 500

LOCAL ON-PREM OR VPC SOLUTION

TOP TALENT FROM USA AND CANADA

FULLY MANAGED AI POWERED AUTOMATION

We help you automate key workflows and deploy smart agents with strong oversight and higher productivity across workflow automation, agent development, analytics, and AI governance.

We manage AI transformation end-to-end, spanning strategy, implementation, and ongoing optimization with hyper-care.

OUR FLAGSHIP PRODUCT

ENTERPRISE AUTOMATION PLATFORM

IQ Intelligence as a Software

MANAGED • SECURE • SCALABLE

FULLY MANAGED
NO NEED TO HIRE AI TEAMS

ARABIC + ENGLISH
LANGUAGE INTERFACE

JAVA LANGUAGE
FOR HIGH INTEGRATION

OPS CONSOLE
EXPLAINABILITY DASHBOARD

MICROSERVICE
ARCHITECTURE

PDPL & SDAIA
COMPLIANT

WHY ENTERPRISES CHOOSE AI POWERED AUTOMATION?

CUT HIRING COSTS • REDUCE HUMAN ERRORS • SCALE FASTER 24/7

YOUR JOURNEY WITH US

AI MANAGED SERVICES

Every AI-Powered automation deployment we build is measured, auditable, and enterprise-ready. These are the outcomes our clients consistently achieve when intelligent process automation is engineered specifically for their organization.

FREE

FIRST MEETING 60 MINUTES

You see how Intelligent Process Automation works, walk through a live demo of our assessment tool, and leave with a free link to score your most painful process yourself.

FREE

DISCOVERY + LIVE ROI + PROPOSAL

We map your selected process end to end, present high-level As-Is and To-Be diagrams. By the end of the week we run your own numbers through our ROI model to show your savings.

1

PHASE 1 • FORENSIC AUDIT • 4 WEEKS

We analyze your current process in detail, map real-world execution against SOPs, and define the data and architecture needed for automation success.

2

PHASE 2 • PILOT BUILD & VALIDATION • 4 WEEKS

We develop a focused pilot to validate feasibility, calibrate the models to business context, and demonstrate measurable ROI on the highest-priority process.

3

PHASE 3 • GO LIVE • 4-6 WEEKS

We operationalize the solution within the live environment, integrating it into core systems and establishing human oversight for controlled, enterprise-grade execution.

4

PHASE 4 • MANAGED SUPPORT • ONGOING

One flat subscription. Platform, updates, optimisation, and support. Monthly health reports. Quarterly business reviews.

About Us

REAL IMPACT. MEASURABLE ROI.

United Technologies of Automation brings deep enterprise operations industry expertise, partnerships, and experience to transform intelligent operational workflows, helping businesses unlock value with AI agents and assets.
